

# The Indesit Appliance Collection.

The Indesit brand is evolving. With continuous focus on product design, respect for the environment and developing simple intelligent functionality, Indesit appliances are growing up.

For this reason Indesit is one of the major brands in the UK and across Europe. These appliances ease the pressures of modern life and take the hassle out of everyday chores.

Efficient, reliable and easy to use, these appliances are full of innovative solutions that make your life easier.

Designing simple and smart appliances to create more time for life so you can enjoy the things you really love: this is Indesit's philosophy and something we will continue working towards, always.

Our products are so reliable we offer a 5 years FREE parts guarantee on every Indesit appliance, see our Service Promise page for more details.

Indesit presents  
**PRIME**

An innovative collection of  
freestanding and built-in appliances.

# PRIME

## the new generation sets the trend.

Indesit presents Prime, the new co-ordinated range of freestanding and built-in appliances. Styled by the Italian designer Giugiaro, Prime is not just beautiful, it also provides functional and practical solutions. Available in a choice of finishes it combines perfectly with the latest trends in design. Simple, stylish, original, Prime fits well in all modern kitchen settings, with digital technology and a premium feel.

### PRIME

#### Freestanding Collection

Maximum performance, minimum waste. Indesit's new line of Prime freestanding appliances with Smart Technology is an advanced response to today's demand for greater effectiveness and maximum energy efficiency. Indesit washing machines, washer dryers, dishwashers and refrigerators combine Giugiaro's distinctive design with the ultimate in functionality, thanks to the energy-saving, high-performance Smart Technology.

### PRIME

#### Built-in Collection

The Indesit Prime built-in collection offers stainless steel professional styling with the ultimate in advanced features. Choose from a selection of ovens, hobs, hoods, cooling and dishwashing appliances.

8kg

## Your laundry washed, on a larger scale!

The new Indesit Prime laundry range combines contemporary design with the ultimate in advanced features. With up to 8kg washing capacity, a choice of easy to use displays featuring Smart Technology and a host of specialist programmes you can bring real innovation to your kitchen.

## Smart Technology

Maximum performance, minimum waste. The new Indesit Prime washing machines with Smart Technology allow you to achieve optimal wash results with minimum consumption, regardless of the type of load and fabric. A sophisticated sensor detects the weight of your laundry and sets the optimal level of consumption by adjusting the quantity of water, energy and wash time based on the actual load, even with small loads. It also allows you to customise the intensity of the wash cycle based on the level of cleaning needed by choosing between three different modes, **normal**, **fast** or **intensive**, on all cotton and synthetic wash programmes, with water and energy savings of up to 60%, and wash time savings of up to 50%\*.

\*Compared to traditional wash cycles with machine at full load.

## Laundry Features

A+

### Energy Efficiency

The new line of Prime washing machines work harder for you to save an extra 10% compared to the present A+ energy rated appliances, plus they also ensure a perfectly clean wash, with an A wash efficiency rating.

### Digital Displays

The new Prime washing machines with digital displays are designed to provide a quick and simple solution for all your needs. Programming is simple and intuitive. All you have to do is set the programme and customise it according to your needs by selecting the various options. You can change the temperature and spin speed and delay the start of the wash cycle up to 24 hours. The display also shows information about the current wash cycle and the remaining time to the end of the wash cycle.

### Delay Timer

You can delay the start of the wash cycle for up to 24 hours on digital models. Simply load the dishwasher, add the detergent, select the programme and Indesit will do the rest at a time that suits you.

### Stand By Function

All the washing machines in the new Prime range are equipped with a Stand By function which after a few minutes of inactivity automatically turns off the illuminated interface, yet all the programme settings remain active, including the end of programme signal. This solution meets today's need for maximum reduction of excessive consumption, yielding up to 75%\* in energy savings.

\* Compared to when the machine is turned on (not in the wash phase).

### Ergonomic Design

The original and modern design of the new Prime washing machines and their colour combinations give them a distinctive look. The porthole has been designed to allow for greater visibility and the handle is more ergonomic and easier to grip, with a 46cm diameter for easy loading and unloading. Plus the 180° door opening also features an Instant Door Release so that you can open the door immediately when the washing programme has finished or when you have forgotten to put something in the machine.

## Special Programmes

### Jeans

A specific programme to control wash, agitation and temperature to wash denim, delivering a superior cleaning result taking care of colours and fabrics, for perfect jeans in just one hour.

### Shirts

This gentle cycle is designed to relax the shirt fibres to help make them easier to iron and fold (up to 2kg load).

### Duvet

A deep clean wash for duvets, quilts and padded jackets, with optimised agitation to take extra care of the padding.

### Outdoor Wear

A unique cycle to care for your outdoor wear such as waterproof jackets. This wash programme gently washes technical fabrics, and ensures they are clean and ready to take on your next outdoor adventure.

### Cool Wash

Do your bit for the environment! An option that allows you to wash at a lower temperature (below 30°) to save on energy.

### Express Wash

A special cycle designed to wash a small load (1.5 kg) of lightly soiled garments in just 15 minutes!

## Sports Programme *Sport*

Indesit washing machines are perfect for sport-lovers. The range has a wash programme specifically designed for trainers.

### Special Shoes

Indesit has created the first programme to take care of your sports shoes and trainers. It keeps them like new, saving you time and the effort needed to wash them by hand. During the wash, they stay close to the side of the drum so they don't knock, scrape or fall over each other, ensuring noise is also reduced.

PWE8168S

| Model    | Colour       |
|----------|--------------|
| PWE8168S | White/Silver |

Dimensions: H85 W59.5 D60 cm

8 kg   
6 kg

More of your laundry, washed and dried in one go.

The new Indesit Prime washer dryer range can wash and dry up to a massive 6kg in one cycle, it can also wash up to a huge 8kg load.

## Smart Technology

Maximum performance, minimum waste. The new Indesit Prime washer dryers with Smart Technology deliver optimal wash and dry results with minimal consumption for any type of load and fabric. A sophisticated sensor detects the weight of the fabrics and sets the optimal wash and dry parameters, adjusting them according to the actual load. Guaranteeing minimal consumption and yielding up to 60% in water and energy savings and up to 50% in wash time savings\*.

\*Compared to traditional wash cycles with machine at full load.

## Special Programmes

### Express Wash & Dry

A special cycle so that you can wash and dry a small load in just 45 minutes.

### Special Drying Programmes

Sometimes you may just need the drying programmes. This is why the new Prime washer dryers offer three specific dry programmes for cotton, synthetics and wool, recommended for gently drying hand-washed clothes.

## Automatic Sensor Drying Levels

**High performance dryer.** Just set the desired dryness level and your new Prime washer dryer will do all the rest. Thanks to a series of sensors that detect the moisture within the garments and set the drying time, the dry cycle stops automatically when the desired level of dryness has been reached. An ideal solution so you can have clothes ready to be ironed, hung or placed straight in the closet.

### Iron Dry

The delicate level, with the highest residual humidity. It is useful for garments you would like to iron afterwards.

### Hanger Dry

The residual humidity level is higher than in the cupboard level. The perfect humidity to hang garments up for reduced creasing.

### Cupboard Dry

The garments are completely dry and are ready to be folded and placed into the cupboard.

### Extra Dry

These garments are ready to wear straight from the tumble dryer.

## Perfect results with reduced consumption.

To simplify everyday life Indesit has created this stylish range of Prime dishwashers. These beautiful, easy to use and efficient dishwashers combine modern design with the ultimate in flexibility.

### Smart Technology

Maximum performance, minimum waste. The new Indesit Prime dishwasher with Smart Technology minimises consumption while guaranteeing optimal wash results in the least time possible. All you have to do is select the normal or intensive programme: a sensor detects the level of food particles in the dishwasher, and consequently sets the jet pressure, temperature and number of rinses in order to obtain impeccable wash results whilst using only the necessary quantities of energy and water.

## Dishwashing Features

### Energy Efficiency

The best washing, drying and energy performance available.

### Digital Display

Control your dishwasher with this simple and intuitive digital display.

### Quiet+

The new Prime dishwasher works quietly in the background so you can enjoy life at home. At 47db(A) it is so quiet you will hardly notice it!

### Maximum Loading Flexibility

The internal space is fully utilised to provide greater wash load capacity: the new rack design accommodates up to 14 place settings. In addition, the clever use of internal space offers maximum loading flexibility: the lower basket is designed to make optimal use of limited space, with sliding cutlery baskets. Thanks to the special shape of the flaps in the upper basket, they can accommodate up to six long stemmed glasses. If you need to load large pans, fold away the flaps for more space.

### Speed+

The new Daily Speed+ and Intensive Speed+ programmes are designed to save time. The water jet pressure regulator guarantees perfect rinsing performance and fast operation, yielding 30% in rinse time savings compared to the Normal and Intensive cycles.

### Smart Sixty

An A rated wash performance in 60 minutes. Perfect for saving energy and time.

### Tablets Option

Get the best from your multitasking tablets. This option prevents salt and rinse aid being released into the wash from the dishwasher. It can be selected with most cycles ensuring great cleaning.

### Delay Timer

You can delay your dishwasher start time for up to 24 hours on digital models. Simply load the dishwasher, add the detergent, select the programme and Indesit will do the rest at a time that suits you.

## Large capacities and cool energy savings.

The Indesit Prime cooling collection is a new range of fridge freezers with large interior capacities plus 30 litres of extra space, modern styling, a choice of user interfaces and clever storage solutions.

## Smart Technology

Maximum performance, minimum waste. Thanks to an advanced sensor system, the new Indesit Prime refrigerators with Smart Technology constantly monitor the performance of the appliance. The Smart LED light, incorporated in the display, keeps the internal environment under control, to the ideal temperatures for your fridge and freezer. For example if the temperature rises due to a power-cut or if the door has been left open, the control system detects a variation in the preset parameters and informs you with an audible alarm and a flashing light. The Smart Technology quickly restores the refrigerator to its optimal working conditions, and informs you that the preset temperature has been reached, reducing energy waste.

## Flexible Storage Solutions

To meet storage needs and fit perfectly into modern kitchens, the slightly rounded door shape gives the new Prime fridge freezers a distinctive look, but also allows for up to 30 litres of extra capacity. In order to make room for large containers, the **Flexi Shelf** in the centre of the fridge compartment can be folded onto itself. Cans and bottles of all sizes can be stored in the deep door shelves. Similarly, the freezer door houses two **Pizza Shelves** for storing frozen food. Use the **Easy Access** drawer in the top of the freezer to get to your frozen foods quickly. For space saving purposes, the **Ice<sup>3</sup>** ice cube trays fit into the freezer drawers.

**A+**

### Energy Efficiency

A+ energy ratings offer the best performance with minimal energy consumption. Saves you up to 25% energy compared to A class.

### Total No Frost

An air tower at the back of the fridge allows perfect air circulation to ensure even chilling, preventing the formation of frost on foods and conserving their original flavour and quality. So your frozen food won't stick together, plus there is no need to defrost ever again.

### Digital Display

The premium models of the Prime range are equipped with an innovative digital display, allowing you to keep control of the internal environment thanks to the Smart LED light. Plus the Stand By mode automatically turns off the LEDs except the on/off and Smart ones, after approximately 10 minutes of display inactivity (provided the Eco and Holiday functions are activated) reducing energy consumption to a minimum. There are a number of other useful functions available below, at the touch of a button.

### Holiday Setting

During periods of prolonged absence, this function allows the freezer to be left running and the refrigerator to be kept at a temperature of around 12°C when empty, with the door closed. This prevents the formation of moulds and unpleasant odours and energy consumption is minimal.

### Eco Function

This function acts like a secret alarm to let you know when your fridge freezer temperatures aren't correct. Plus it automatically turns on Super Cool and Super Freeze to bring the fridge freezer within acceptable limits.

### Bottle Chill

This new function reduces the temperature in the top drawer of the freezer for the period needed to chill a bottle. A buzzer signals when the bottle reaches the best temperature. So you can always get sparkling wine at the ideal temperature for a toast!

Our products are so reliable we offer a 5 years FREE parts guarantee on every Indesit appliance, see our Service Promise page for more details.

Our products are recommended by the Energy Savings Trust as being best in class for energy efficiency. Look out for the energy saving icon.

## Stylish, energy efficient ovens.

To make your life a little easier here is a range of ovens which offers a choice of 5, 6 or 8 cooking functions, taking care of even the most complex dishes. With A energy ratings, a choice of finishes and even the option of a self-cleaning programme on the top model, you can make the most of your free time!

A

### Energy Efficiency

Within the Indesit Prime oven range there is a wide choice of A rated models, offering you a stylish and energy efficient cooking solution for your kitchen.

### Electronic Programmable Timer

No need to plan your life around meals. The programmable timer means you can set the start and finish times to suit the demands of your day and your cooking.

### Self Cleaning Oven

Our smart ovens have the latest in technology. The new additions to the built-in range include a pyrolytic self cleaning oven, saving you time and effort! This powerful function automatically locks the quadruple glazed door, the oven heats up to 500°C and burns off all the fat and waste leaving just a small pile of ash to wipe away. The best part is it costs less than 50p per cycle, so throw away those rubber gloves!

### Multifunction Cooking Explained

A useful programming system allowing you to select many different cooking options. Providing you with the best way to cook all kinds of food, whether it is a roast dinner or pizza and garlic bread.

### Conventional

Top and bottom heat, perfectly concentrating heat in the middle of the oven, great for roasts.

### Multi-level

Useful when you have a range of items to cook on different racks, particularly those large family roasts.

### Grill/Half Grill

Top heat only: perfect for cheese on toast and finishing off your pasta bake toppings.

### Fan Grilling (or Gratin)

The combination of fan and grill ensures your meals cook evenly from the inside out. This mode works best with pork, lamb and poultry.

### Speedy Barbecue

The new programme which let's you invite your friends for an indoor barbecue! Meat, fish and vegetables, well toasted, without the smoke and mess.

### Freasy Cook

Ideal for cooking frozen foods quickly. The oven does not need to be pre-heated, therefore saving a lot of time.

### Baking

Perfect for pastries and cakes, an even heat to help your cakes rise to perfection.

### Pizza

This mimics a traditional pizza oven by heating up very quickly, using mostly the bottom element to make sure your pizza base is crispy.

## New design and great stylish looks!

The new hobs collection has been designed to look stylish, whilst being practical and functional too. The simple yet attractive design enables the hobs to coordinate with all other Indesit Prime built-in appliances to create a great look in any kitchen. Plus the range includes a choice of gas, electric and induction technology in a range of colours to perfectly match the rest of your appliances.

### Induction Technology

Induction is the latest in hob technology. These hobs are faster, more energy efficient and more controllable than any other type of hob. This clever system works by generating the heat in the base and sides of the pan using magnetic current, it is not the hob that gets hot. All you need to get started are some "Induction compatible" pans (they must be ferrous), cast iron pans are great. To check, just use a magnet on the base of your pan, the stronger the magnetic "stick" the better. If in doubt, look for the pan sets that state they are suitable for induction hobs. Simple and smart - perfect.

### 75cm Width

Indesit has added a 75cm hob to its range, giving 15cm more cooking space than the standard 60cm width. The position of the burners, the Flame Supervision Device and the electronic ignition have all been developed with safety in mind. The advantage of the 75cm hob is that it can be inserted in a standard 60cm cut out which means you can change your hob to give you more space with minimal disruption to your kitchen.

### Flame Supervision Device

All Prime gas hobs have Flame Supervision Device technology which automatically cuts off the gas supply in the event of the flame blowing out. See individual models for details.

### Wok Burner

Our wok burners offer a powerful 3.5kW dual flame. This ensures your woks get heat underneath and around the pan for a perfect stir fry.

### Domino Hobs

These slimline 30cm hobs are ideal for those kitchens with limited worktop space. Indesit has introduced gas and ceramic options to choose from, or even mix & match for a completely customised hob solution. Domino fitting strips are also available for a perfectly coordinated look.

### Pan Supports

The new design of the pan supports make them even more secure and stable. They are also easy to remove to allow quick cleaning of the hob and come in a choice of cast iron or enamel. See the individual models for more details.

### Controls

The control knobs have been re-designed to make flame regulation even easier to control. Plus the new knobs coordinate with the Prime ovens range to make a stylish cooking solution for all kitchens. There is also a child safety lock on our ceramic and induction hobs which locks controls and selected programmes so there are no mishaps.

IP751SCIX

| Model     | Colour          |
|-----------|-----------------|
| IP751SCIX | Stainless Steel |

## Introducing the Indesit range.

A complete range of laundry, dishwashing and cooling appliances plus cookers, ovens, hobs and hoods. Choose from this range of modern, stylish and feature packed appliances, all designed to give you back your free time.

To make your life easier these appliances offer flexible capacities, a choice of colours, including stainless steel and anthracite, a whole host of features dedicated to making your life easier.

## Simple ideas. Refined intelligence.

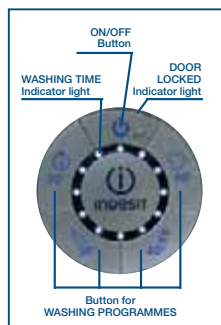

Indesit Moon, a washing machine that's intelligent and easy to use. An iconic product with a unique interface and a coloured door, Moon brings a touch of style into any home. With an innovative integrated self-cleaning detergent dispenser inside the door designed for improved wash performance, its smart technology makes your life simpler. Indesit Moon, for those who want everything from a washing machine.

### Smart Solutions

Indesit Moon gives you intelligent technological solutions to solve all your laundry needs. It's easy to use and helps you to get the best results every time. Moon automatically adjusts the temperature and spin speed according to the programme chosen, plus with automatic consumption control, the amount of water and energy used is optimised according to the amount of washing. What's more, an innovative sensor in the drum detects detergent through the alkalinity of the water and automatically runs up to 2 extra rinse cycles if necessary, to ensure all traces of detergent are removed from the garments. Lastly, the load balancing system reduces vibrations to a minimum, guaranteeing you peace and quiet. Indesit Moon where smart solutions, beauty and intelligence become one.

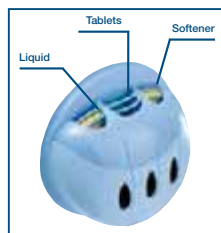

### A Simple and Innovative Interface

The innovative control interface of Moon allows greater ease of use. Its bright LEDs allow you to monitor the progress of your chosen programme and the interface lights pulsate at the end of the cycle. Plus choosing a wash programme couldn't be simpler: with 4 special buttons you can immediately set each type of cycle to suit any kind of laundry, with excellent results.

| WASHING PROGRAMMES |   |
|--------------------|---|
|                    | For white and colourfast cottons, a 60°C wash programme.  |
|                    | For all colourfast cottons and synthetics a 40°C wash with integrated Easy Iron, reducing creases making ironing fast and easy. |
|                    | There is a 30°C option for all delicates, wool and silk items. Available with and without spin options.                         |
|                    | A 30-minute fast wash at 30°C for small loads and items that need a freshen up. There is also a rinse only function.            |

### Self-Cleaning Detergent Dispenser

Indesit Moon's unique integrated dispenser is located behind the door and delivers detergent directly into the heart of the wash, giving you up to 50% more cleaning power.\* This innovative design also allows water to wash through the dispenser, keeping it clean while using all the detergent in the wash. What's more, the internal dispenser floats to help prevent overfilling with detergent. Better for your clothes, the environment and your pocket.

\* Test carried out from SGS Group (Societe Generale de Surveillance), using Ariel liquid detergent.

### Award Winning Design

These are just a few of the international awards won by Indesit Moon since 2007.

- 30° Silk & Curtains
- 30° Wool
- Fast Wash 30°: 30 minutes
- Rinse only cycle
- Automatic rinse control
- Washing performance rating: **A**
- Energy efficiency rating: **A+**
- Spin efficiency class: B
- Water consumption: 65 litres

## No more wash day blues, we make your life easier.

Loading and unloading has never been easier, with new wider doors, a tilted control panel for easy programme selection and a choice of white and silver finishes, these laundry appliances really do save you time.

For more information on the premium range of Prime laundry appliances see pages 10-13.

## Simply Ecologic EcoTime

There is no need to wait for a full load, this option is to use whenever you need to wash a smaller load and quickly. Simply wash a load of up to 3kg of lightly soiled cotton or synthetic garments in around 30% less time but using up to 40% less water and energy.

| Reduction compared with standard cycle | Duration (min) | Water (lt) | Energy (kWh) |
|--|----------------|------------|--------------|
| COTTON 60° + Eco Time Option           | -29%           | -39%       | -45%         |
| COTTON 40° + Eco Time Option           | -32%           | -39%       | -49%         |
| SYNTHETICS 40° + Eco Time Option       | -20%           | -26%       | -42%         |

### Energy Efficiency

The Indesit laundry range features triple A rating in wash performance, energy efficiency and spin efficiency, some even reach A+ energy efficiency.

### Digital Display

The Indesit digital display shows which options you have chosen for your wash programmes including the time remaining until the end of the wash. And with simple navigation, you can easily personalise your wash programmes such as lowering the temperature or slowing down the spin speed.

### Delay Timer

With this function, you can delay the programme for up to 24 hours on the digital models, according to your needs. Prepare the load, add the detergent, set the programme, and the machine will start at your chosen time.

### Easy Iron

To make ironing fast and easy, all you need to do is press this button. The Easy Iron function picks the best wash and spin cycles for the fabrics being washed to reduce creasing to a minimum.

### Pre and Post Crease Care

At the start or at the end of the drying cycle, the machine will intermittently tumble the items keeping them fresher and minimising the level of creasing.

### Integrated Laundry

The Indesit laundry collection also features appliances that are hidden behind a door so you can keep your kitchen design free of gaps. Plus these integrated appliances feature all the freestanding innovation so you don't miss out! Look out for the integrated icon, for more details.

## Special Programmes

### Flash 60'

For those who want the best wash performance in the shortest time. While the standard cycles can last almost two hours, Indesit A rating standard wash is ready and clean in approximately an hour saving time without sacrificing quality.

### Express Wash/Express Wash and Dry

Two special cycles designed to wash a small load of lightly soiled garments in just 15 minutes and have them washed, dried and ready to wear in just 45 minutes!

### Jeans

Taking care of your denim is now even easier with this gentle wash. Your jeans are washed and dried perfectly, with extra care taken to preserve the rich colours.

### Outdoor Wear

A unique cycle to care for your outdoor wear. This programme gently washes and dries technical fabrics, and ensures they are clean and ready to take on your next outdoor adventure.

### Wool & Delicates

These cycles take care of your most delicate items with gentle agitation.

### Automatic Sensor Drying Levels

Let your Indesit washer dryer or tumble dryer take the guesswork away. An automatic sensor in the drum monitors moisture levels and stops the drum when your clothes are perfectly dry, ensuring your clothes stay as good as new. Select a machine with a multi-level sensor system and you will be able to select the level of dryness required – iron, hanger or cupboard dry. For full explanation see page 12.

## Sports Programmes *Sport*

Indesit washing machines are perfect for sport-lovers. The range has two wash programmes specifically designed for trainers and for sports-kit fabrics.

### Special Shoes

Indesit has created the first programme specifically for sports shoes and trainers. It keeps them like new, saving you time and the effort needed to wash them by hand. Thanks to this cycle, an exclusive Indesit patent, your favourite shoes will always be in perfect condition. During the wash and dry cycles, they stay close to the side of the drum so they don't knock, scrape or fall over each other, ensuring noise is also reduced.

### Sport Light & Intensive

Those who love sport know how important it is to have clean clothes ready for the next training session. Sport Light is the perfect cycle for synthetic gym clothes, whilst the Sport Intensive cycle is ideal for those muddy football or rugby kits. Both cycles ensure the best wash and dry performance and results without sacrificing quality.

7kg

## Created for those with loads to do

For larger loads of washing, Indesit has created a range of 7kg washing machines. For small loads, you can save time, water and energy thanks to the new Eco Time option.

Our products are so reliable we offer a 5 years FREE parts guarantee on every Indesit appliance, see our Service Promise page for more details.

Our products are recommended by the Energy Savings Trust as being best in class for energy efficiency. Look out for the energy saving icon.

For more information on the premium range of PRIME Washing Machines see pages 10-11.

7 kg  
5 kg

## Your laundry, washed and dried.

Indesit washer dryers can wash and dry up to 5kg in one wash and dry cycle. So there is no need to divide the washing into 2 time-consuming loads, saving you time and effort. You can also wash up to a 7kg laundry load in just one cycle.

PRIME

For more information on the premium range of Prime washer dryers see pages 12-13.

7.5kg

## Indesit tumble dryers: making life easier!

To suit everyone's needs, Indesit tumble dryers offer a range of 3kg to 7.5kg capacity: for clothes that are as fresh as those dried outdoors, soft and ready to wear!

Indesit tumble dryers are perfectly coordinated with the washing machine range so all features are matched so you can wash and dry your garments perfectly. For an explanation of icons and features please refer to **pages 40-41**.

Our products are so reliable we offer a 5 years FREE parts guarantee on every Indesit appliance, see our service Promise page for more details.

## Maximum flexibility for all your needs.

Innovative solutions with versatile and intelligent programmes. Because Indesit not only makes life simple, it can improve it too.

For more information on the premium range of Prime dishwashing see pages 14-15.

## Simply Brilliant

These programmes have been created to give you the best possible performance whilst saving time, energy and water consumption.

### Energy Efficiency

The best washing, drying and energy performance available.

### Time4You

Time4You, a unique programme from Indesit, is the fastest programme in its class, guaranteeing exceptional washing performance. This A rating wash cycle washes your dishes in just over an hour!

### Rapid 35'

Perfect for lightly soiled dishes, Indesit's Rapid wash means dishes are ready and clean in 35 minutes.

### Rapid & Dry

On the slimline dishwasher, Indesit Rapid & Dry means dishes are cleaned and dried in only 40 minutes.

## Special Programme

### Delicates

Safety and a crystal-clear shine, even for your most valuable glasses and dishes. The electronic temperature control avoids extreme variations of heat while the water-pressure control ensures a delicate wash.

### Integrated Dishwashing

The Indesit dishwashing range also features a collection of dishwashers that are hidden behind a door so you can keep your kitchen design free of gaps. These integrated appliances feature all the freestanding innovation so you don't miss out. Plus Indesit integrated dishwashers are really easy to install as they are on legs so you can place them under your worktop easily. Look out for the integrated icon.

PRIME

For more information on the premium range of Prime dishwashing see pages 14-15.

## More technology, less energy.

Indesit fridges and freezers offer the best cooling and food preservation features combined with the most energy efficient performance.

For more information on the premium range of Prime cooling appliances see pages 16, 17 & 33.

### Nice and Strong

Styled by the renowned designer Giugiaro, our cooling range has been designed to combine stylish looks with innovative yet practical features. Each appliance works hard to make everyday chores easier, saving you time without compromising on performance. Clever storage solutions for bottles and cans, smart ice storage trays that free up space in your freezer, A+ energy ratings and many other features all combine to give you appliances that work hard for you. Beautiful designs combined with useful features. Fridges and freezers that you can rely on.

### Energy Efficiency

The new Indesit range with A and A+ energy ratings offer the best performance with minimal energy consumption. Saves you up to 25% energy compared to A class rating.

### Total No Frost

An air tower at the back of the fridge allows perfect air circulation to ensure even chilling, preventing the formation of frost on foods and conserving their original flavour and quality. So your frozen food won't stick together, plus there is no need to defrost ever again.

## Fridge Features

### Holiday Setting

During periods of prolonged absence, this function allows the freezer to be left running and the refrigerator to be kept at a temperature of around 12°C when empty and with the door closed. This prevents the formation of moulds and unpleasant odours by using minimal energy consumption.

### Eco Function

If the thermostat is turned to this position, the ideal temperature for preserving food with minimum energy consumption will automatically be selected.

### Super Cool

This button is used to lower the temperature of the refrigerator to rapidly cool new food items. Following the required time, the refrigerator automatically returns to normal operation.

### Hygiene Control - Antibacterial Protection

An innovative coating on the inside of the fridge compartment helps protect against bacteria for the safest environment for your food.

### Wine Rack

A stylish way to store bottles of wine in your fridge, cooled to the perfect temperature ready to be poured.

## Freezer Features

### Bottle Chill

This new function allows a reduction in the freezer temperature to perfectly chill a bottle. A buzzer signals when the bottle reaches the best temperature. So you can always get sparkling wine at the ideal temperature for a toast!

### Super Freeze

This button can be used to activate a special function that lowers the temperature to its lowest value for a short period of time. This is used to accelerate the freezing process of fresh foods and thus preserve their original qualities. As soon as they reach their frozen state, the temperature can be returned to normal by pressing the button again. If, however, you should forget, the freezer will automatically revert to the ideal temperature after a short time.

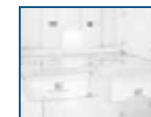

### Ice³ Integrated Ice Trays

To save even more space, the ice trays are now set into the inner freezer door of the double door refrigerators or integrated into the drawers of the fridge freezers and over-counter freezers. Their special design makes them more practical and hygienic, preventing water being spilled when moving them. It also keeps the ice in sealed containers away from foods that could spoil the ice cubes.

### Flex Cool Box

These transparent containers are flexible in terms of space and content. When positioned in the lower part of the refrigerator they can be used to store meat and fish, which they keep fresh for a long time; but they can also easily be moved to the upper part and transformed into a handy cheese box.

### Maxi Bottle Shelf

The bottle holder compartment has a new, wider design and can also hold large and bulky bottles – even 2 litre ones – along its entire length.

### Transparent Drawers

The freezer drawers are transparent so frozen foods can be identified immediately.

### Light Xtra

The Indesit cooling range now features two lamps on the upper part of the fridge, fixed above the glass shelves making internal visibility simply perfect.

### Integrated Cooling

The Indesit cooling collection also features behind the door fridges, freezers and fridge freezers, so you can keep your kitchen design free of gaps. Plus these integrated appliances feature all the freestanding innovation so you won't miss out! Look out for the integrated icon for more details.

## More space, more functions, more cold storage: the new 70cm range.

With a modern design, increased efficiency and useful features, bigger really is better.

A

Dimensions: H190 W70 D68.5 cm

- Fridge gross capacity: 280 litres/9.9 cu ft
- Freezer gross capacity: 118 litres/4.2 cu ft
- Total No Frost
- Reversible doors
- Hygiene Control
- Flex Cool Box
- Play Zone for flexible bottle storage
- Full width salad bin
- Super Freeze option
- Safety glass shelves
- Maxi bottle shelf
- Egg tray
- Ice³: integrated ice trays in freezer door
- Energy efficiency rating: **A**
- Energy consumption: 1.11 kWh/24hrs
- Freezer rating: **\*\*\***

New model available in Summer 2009: **BAN40FNF**

## The Indesit Iridium.

The ultimate in cooling technology. Who said A+ energy can't be frost free too?

### New Display

The new and functional display allows you to easily vary the temperature of the fridge and freezer and also warns if the door was left opened or if there has been a power-cut. Everything you could need is at the touch of a button: **Super Cool** to lower the temperature of the refrigerator when adding foods that require rapid cooling, **Holiday Setting** to keep the fridge and freezer running at a safe temperature of around 12°C whilst you are on holiday, **Super Freeze** which freezes fresh food quicker to preserve the quality, or the newest function **Bottle Chill** to chill your wine quickly in a special freezer compartment, or the **Eco Function** which preserves the food with minimal energy consumption.

\*to control Alarm, Bottle Chill, Child Lock, Holiday, Ice Party, Super Cool

Our products are so reliable we offer a 5 years FREE parts guarantee on every Indesit appliance, see our Service Promise page for more details.

Our products are recommended by the Energy Savings Trust as being best in class for energy efficiency. Look out for the energy saving icon.

PRIME

For more information on the Prime cooling range, see pages 16, 17 & 33.

www.indesit.com

## Design: style and performance.

Design is important. But for Indesit it's not just about beauty, cookers must also be practical and functional for everyday use. That's why the designs of the new Indesit cookers, by Giugiaro, are fresh and stylish. Each detail combines elegance, sturdiness and functionality for easier use and a longer life. Providing innovative solutions for everyday living.

### Wide Choice

The Indesit cooking range is extensive. It offers a choice of 90cm range cookers, 60cm range cookers, 60cm double ovens, 60cm single cavities, 50cm twin cavities, 50cm single cavities and in a choice of gas, electric, dual fuel and LPG. There is also a wide choice of colours, including White, Moonstone Silver with reflective glass doors, Anthracite with soft touch control knobs and handles and Stainless Steel.

### Accessories

A range of matching hoods and splashbacks are also available. See page 106 for details.

#### LPG

All gas and dual fuel cookers are convertible to LPG. See individual models for details.

## Hob Features

### Wok Burner

Our wok burners offer a powerful 3.25kW dual flame. This ensures your wok gets heat underneath and around the pan for a perfect stir fry.

### Flame Supervision Device

The Indesit cooking range features models with Flame Supervision Device technology, which automatically cuts off the gas supply in the event of the flame blowing out. See individual models for details.

### Ceramic Hobs

Indesit ceramic hobs offer increased efficiency and faster heat than solid plate hobs. They are also easy to use and easy to clean with a sleek surface to wipe clean. Our 90cm ceramic range cookers come complete with an oval dual zone, perfect for odd shaped pans and keeping trays warm.

## Oven Features

### Multifunction Cooking Explained

A useful programming system allowing you to select a maximum of eight cooking options. Providing you with the best way to cook all kinds of food, whether it is a roast dinner or pizza and garlic bread.

#### Conventional

Top and bottom heat, perfectly concentrating heat in the middle of the oven, great for roasts.

#### Fan

Consistent heat throughout the cooking process, perfect for everyday use.

#### Fan Grilling (Gratin)

The combination of fan and grill ensures your meals cook evenly from the inside out. This mode works best with pork, lamb and poultry.

#### Grill/Half Grill

Perfect top heat only, ideal for cheese on toast and finishing off your pasta bake toppings. Use the full grill, or just half, depending on the dish you are cooking.

#### Multi-level

Useful when you have a range of items to cook on different racks, particularly those large family roasts.

#### Baking

Perfect for pastries and cakes, an even heat to help your cakes rise to perfection.

#### Pizza

This mimics a traditional pizza oven by heating up very quickly, using mostly the bottom element to make sure your pizza base is crispy.

#### Easy Defrost

Preheating is not necessary as this mode heats the oven quickly. It is especially useful for cooking pre-packed foods quickly (frozen or pre-cooked).

## Beautiful range cookers packed with smart features.

These Indesit range cookers look stunning with professional styling in stainless steel plus the latest in intelligent features to make cooking a real pleasure.

See pages 106-107 for matching splashbacks and hoods.

KP900CX

| Model   | Colour          |

| KP900CX | Stainless Steel |

Dimensions: H90 W90 D60 cm

### Electric Ceramic Double Oven Range Cooker

#### Electric Hob

- 4 ceramic zones including oval dual zone and large rapid burner
- Easy clean hob

#### Main Oven (left)

- Electric Multifunction 7 oven: Conventional, Fan, Grill, Fan Grilling, Half Grill, Baking, Pizza
- Oven capacity: 54 litres

#### Side Oven (right)

- Electric Multifunction 4 oven: Conventional, Bottom Heat, Grill, Half Grill
- Oven capacity: 36 litres

#### Performance

- Minute minder
- Grill pan and handle, roasting tray
- Light in both ovens
- Energy efficiency: B/A
- Energy consumption: Left oven: 0.96 kWh Right oven: 0.79 kWh

KP900GX

| KP9508CXG | Stainless Steel |

Dimensions: H90 W90 D60 cm

### Electric Ceramic Single Oven Range Cooker

#### Ceramic Hob

- 4 ceramic zones including oval dual zone and large rapid burner
- Easy clean hob

#### Large Electric Oven

- Grill type: variable electric
- Conventional oven with variable grill
- Oven capacity: 68 litres

#### Performance

- Minute minder
- Grill tray
- Oven light
- Energy efficiency: B
- Energy consumption: 1.19 kWh

KP9508EXG

| Model     | Colour          |
|-----------|-----------------|
| KP9508EXG | Stainless Steel |

Dimensions: H90 W90 D60 cm

### Dual Fuel Single Oven Range Cooker

#### Gas Hob

- 5 fully controllable gas burners including 1 wok burner
- Easy clean hob
- Cast iron pan supports
- Electronic ignition to hob
- Flame Supervision Device

#### Large Electric Oven

- Grill type: variable electric
- Conventional oven with variable grill
- Oven capacity: 68 litres

#### Performance

- Minute minder
- Grill tray
- Oven light
- Energy efficiency: B
- Energy consumption: 1.19 kWh

Hob LPG convertible - kit included.

KDP60C

| Model  | Colour          |
|--------|-----------------|
| KDP60C | Stainless Steel |

**Dimensions:** H90 W60 D61 cm

#### Ceramic Mini Range Cooker

##### Ceramic Hob

- 4 ceramic zones
- Easy clean hob

##### Top Oven

- Electric conventional oven with variable electric twin grill
- Oven capacity: 35 litres

##### Main Oven

- Electric fan oven
- Oven capacity: 65 litres
- LED clock and minute minder
- Main oven light
- Grill pan and handle
- Energy efficiency: B/B
- Energy consumption: Top oven: 0.99 kWh Main oven: 1.19 kWh

KDP60E

| Model  | Colour          |
|--------|-----------------|
| KDP60E | Stainless Steel |

**Dimensions:** H91 W60 D61 cm

#### Dual Fuel Mini Range Cooker

##### Gas Hob

- 4 fully controllable gas burners in 3 sizes
- Easy clean hob
- Glass lid with safety cut off
- Electronic ignition to hob
- Twin enamelled pan supports

##### Top Oven

- Electric conventional oven with variable electric twin grill
- Oven capacity: 35 litres

##### Main Oven

- Electric fan oven
- Oven capacity: 65 litres
- LED clock and minute minder
- Main oven light
- Grill pan and handle
- Energy efficiency: B/B
- Energy consumption: Top oven: 0.99 kWh Main oven: 1.19 kWh

Hob LPG conversion kit available to order as a spare part.

#### Electric Single Cavity Cooker

##### Ceramic Hob

- 4 ceramic zones
- Easy clean hob

##### Electric Oven

- Electric fan assisted oven with combined grill
- Oven capacity: 56 litres
- Minute minder
- Oven light
- Grill pan and handle
- Storage compartment
- Energy efficiency: **A**
- Energy consumption: 0.78 kWh

K6G520XG

**Dimensions:** H90 W60 D60 cm

#### Dual Fuel Single Cavity Cooker

##### Gas Hob

- 4 fully controllable gas burners in 3 sizes
- Easy clean hob
- Twin enamelled pan supports
- Electronic ignition to hob

##### Electric Oven

- Electric Multifunction 6 oven: Conventional, Fan Assisted, Grill, Fan Grilling, Top Element Only, Easy Defrost
- Oven capacity: 56 litres
- Minute minder
- Oven light
- Grill pan and handle
- Storage compartment
- Energy efficiency: **B**
- Energy consumption: 0.87 kWh

Hob LPG convertible – kit included.

Our products are so reliable we offer a 5 years FREE parts guarantee on every Indesit appliance, see our Service Promise page for more details.

## Stylish ovens for flexibility and convenience.

Indesit's range of ovens combine stylish looks, ease of use and functionality to make cooking simple and enjoyable. With a choice of ovens built-in to a column or built-under a worktop and a wide range of colour options, there is an oven to match every kitchen design.

For more information on the premium range of Prime single ovens see pages 20-23.

### Energy Efficiency

Without compromising on performance, 'A' energy rated products use less electricity, which not only saves you money but reduces the impact on the environment. Indesit ovens are among the most energy efficient you will find with 'AA' ratings for all our built-in double ovens, and a selection of 'A' rated single ovens too.

### Electronic Programmable Timer

No need to plan your life around meals, the programmable timer means you can set the start and finish times to suit the demands of your day and your cooking.

### Self Cleaning Options

Our ovens have the latest technology. The new additions to the built-in range include a pyrolytic self cleaning oven, saving you time and effort! This powerful function automatically locks the quadruple glazed door, the oven heats up to 500°C and burns off all the fat and waste leaving just a small pile of ash to wipe away. The best part is each cycle costs less than 50p, so throw away those rubber gloves! The Indesit double oven range features catalytic oven liners which help to keep your oven clean by absorbing all the fat and greasy deposits and burn them off during the cooking process.

### Multifunction Cooking Explained

The Multifunction electric oven makes it even easier to cook some of your favourite dishes. With up to 7 functions to choose from, see page 77 for more details.

FIDM20IX

| Model    | Colour                   |
|----------|--------------------------|
| FIDM20IX | Built-in Stainless Steel |

**Dimensions:** H88.7 W59.7 D57.7 cm

#### Top Oven

- Electric conventional oven
- Twin variable grill
- Oven capacity: 35 litres
- Maximum temperature: 220°C
- Energy efficiency rating: **A**

#### Main Oven

- Electric multifunction oven
- Quick defrost function
- Electronic programmable timer
- Twin conventional grill
- Oven capacity: 65 litres
- Maximum temperature: 230°C
- Energy efficiency rating: **A**

- Number of cooking functions: 6
- Conventional
- Fan Assisted
- Grill/Half Grill
- Fan Grilling
- Defrost
- Air flow cooling fan
- Internal chimney venting
- 2 thermostat lights
- Double glazed oven doors
- Catalytic oven liners

## New design and great stylish looks!

The new hobs collection has been designed to look stylish whilst being practical and functional too. The simple yet attractive design enables the hobs to coordinate with all other Indesit appliances to create a great look in any kitchen.

PRIME

For more information on the premium range of Prime hobs, see pages 24-29.

### Induction Hobs

Induction is the latest in hob technology. These hobs are faster, more energy efficient and more controllable than any other type of hob. This clever system works by generating the heat in the base and sides of the pan using magnetic current, it is not the hob that gets hot. All you need to get started are some induction compatible pans (they must be ferrous), cast iron pans are great. To check, just use a magnet on the base of your pan, the stronger the magnetic "stick" the better. If in doubt, look for the pan sets that state they are suitable for induction hobs.

### 70cm Width

Indesit has added new widths to its range, giving 10cm more cooking space than the standard 60cm width. The position of the burners, the Flame Supervision Device and the electronic ignition have all been developed with safety in mind. The advantage of the 70cm hob is that it can be inserted in a standard 60cm cut out which means you can change your hob to give you more space with minimal disruption to your kitchen.

### Flame Supervision Device

The Indesit cooking range features models with Flame Supervision Device technology, which automatically cuts off the gas supply in the event of the flame blowing out. See individual models for details.

### Pan Supports

The new design of the pan supports make them even more secure and stable. They are also easy to remove to allow quick cleaning of the hob.

### Controls

The control knobs have been re-designed to make flame regulation even easier to control.

PI750ASTIX

| Model      | Colour          |
|------------|-----------------|
| PI750ASTIX | Stainless Steel |

**Dimensions:** H3.3 W68 D51 cm

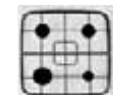

- 5 gas burners:
  - 1 rapid (2.6kW)
  - 2 semi rapid (1.9kW)
  - 1 standard (1kW)
  - 1 triple ring wok burner (3.6kW)
- Automatic ignition
- 3 enamelled pan supports
- Flame Supervision Device
- Fits in a 60cm cut-out

PI640ASIX / PI640AIX

PI640ABK

PI640ASWH / PI640AWH

**Dimensions:** H3.3 W58 D51 cm

- 4 gas burners:
  - 1 rapid (3kW)
  - 2 semi rapid (1.9kW)
  - 1 standard (1kW)
- Electric push button ignition
- 2 enamelled pan supports
- Flame Supervision Device

Also available without Flame Supervision Device:  
 - Stainless Steel **PI640AIX**  
 - White **PI640AWH**  
 - Black **PI640ABK**

| Model   | Colour    |
|---------|-----------|
| VIA640C | Frameless |

**Dimensions:** H5.3 W59 D52 cm

- Touch control
- Child safety lock
- Easy to clean surface
- 4 induction zones:
  - 2 x 2.2kW
  - 2 x 1.4kW
- Residual heat indicator lights
- 9 power levels

VIA640C

VRA640X

VRA640C

| Model   | Colour          |
|---------|-----------------|
| VRA640X | Stainless Steel |
| VRA640C | Frameless       |

**Dimensions:** H4.8 W57.4 D50.4 cm

- Touch control
- Child safety lock
- Easy to clean surface
- 4 ceramic zones:
  - 1 super rapid (2.3kW)
  - 1 rapid (1.8kW)
  - 1 standard (1.4kW)
  - 1 standard (1.2kW)
- Residual heat indicator lights
- 9 power levels

Also available frameless **VRA640C**

VRM640X

| Model   | Colour          |
|---------|-----------------|
| VRM640X | Stainless Steel |

**Dimensions:** H4.8 W57.4 D50.4 cm

- Easy to clean surface
- 4 ceramic zones:
  - 2 rapid (1.8kW)
  - 1 standard (1.4kW)
  - 1 standard (1.2kW)
- Residual heat indicator lights
- 12 power levels
- Mechanical controls

PI604IX

| Model   | Colour          |
|---------|-----------------|
| PI604IX | Stainless Steel |
| PI604WH | White           |

**Dimensions:** H3.3 W58 D51 cm

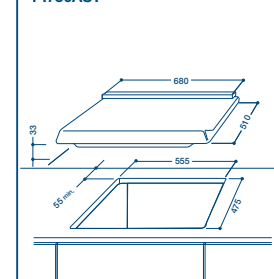

- 4 solid plates:
  - 2 semi-rapid (1.5kW)
  - 2 rapid (2kW)
- On/off indicator light
- 6 power levels

## Stylish hoods, powerful performance.

Stylish hoods, powerful performance. The Indesit collection offers a range of hoods to fit in with all kitchen styles, from the designer chimney hoods to hidden integrated hoods. Keep your cooking environment steam and odour free whilst using the light from your hood to focus on your cooking or provide a little mood lighting when entertaining. The perfect addition to your kitchen.

# Indesit Service Promise.

Our commitment to making your life easier does not stop once you have bought your appliance. Indesit's after sales care is second to none.

## **Rest assured – you're covered**

Your Indesit appliance is covered for a full 12-months by our own parts and labour warranty. Now you are also covered for 5 years FREE parts too when you use our local Indesit engineers. They only fit genuine replacement parts and we guarantee their work for 90 days.

## **Call us at your convenience – 364 days a year**

Indesit service is second to none. You can call us when you need us, including weekends and bank holidays on UK 08448 224 224 or ROI 0818 31 34 13. Alternatively book online any time at [www.indesitservice.co.uk](http://www.indesitservice.co.uk).

## **Appointments to suit you – not us**

You can choose between morning or afternoon appointments with the option of the engineer's first or last visit of the day. Saturday appointments are also available in most areas.

## **Your peace of mind – total protection**

For a small monthly outlay you can ensure that we continue to provide repair protection – including new for old product replacement for your appliance, after your warranty expires. Please call UK 08448 226 226 or ROI 012 30 02 33 for more information.

## **Local engineers – nationwide**

We have the largest white goods service team in the United Kingdom and Republic of Ireland with fully qualified Indesit engineers to ensure you receive fast, reliable local service.

## **Caring for your Indesit – looking good for life**

We have a wide range of accessories to protect and enhance your appliance as well as Professional Home Care cleaning products to keep it looking good and functioning efficiently throughout its life. Please call UK 08448 225 225 or ROI 0818 31 34 13 for more information.
